The students, including a number of girls, said they were protesting "over strict" enforcement of school regulations by Kelley.

### No Break Seen In Phone Strike

NEW YORK UP—No break was in sight today in the 43-state strike of telephone installers that has kept an estimated 150,000 operators from their jobs, partially disrupting long-distance service.

Representatives of the striking Communications Workers of America and the Western Electric Co., were to resume negotiations in an effort to end the strike that began at 6 a. m. Monday.

Hopes for an early settlement were dim, however.

Generally, the strike was having little effect on telephone service across the nation. Local calls were virtually unaffected since 85 percent of such service is controlled through automatic dial equipment.

Thousands of telephone operators refused to cross picket lines set up by striking installers, resulting in widespread delays in long-distance service. But officials of the American Telephone and in the 14 long-distance division buildings throughout the country were being manned at from 63 to 100 percent of normal by supervisory personnel and operators who crossed picket lines.

Directly affected by the walkout are 23,000 members of the CWA who install telephone equipment in Bell System exchange offices in 43 states. They went on strike when protracted negotiations over a new contract broke down early Monday. The only states unaffected by the walkout are Maine, Vermont, Massachusetts, New Hampshire and Montana.

The installers are seeking a one-year contract with an hourly pay increase of 15 cents, plus 5 cents in travel pay and various fringe benefits. Their wages range from \$1.39 to \$2.80 an hour.

Western Electric has offered a two-year pact with pay increases ranging from 6 to 12 cents an hour, plus improved fringe benefits.

### IBM EMPLOYEES BACKING ATTACK ON ACCIDENTS

Employees of the local plant of International Business Machines Corporation are taking part in a company-wide campaign against traffic accidents. The drive, which was launched September 1, will be in effect through December 31. Its purpose is to prevent auto accidents and injuries to IBM employees, their families, and others.

All traffic accidents resulting in death, hospitalization, or loss of time from work will be counted in showing progress of the campaign.

Here, Dept. 750's safety representative for September in IBM's traffic safety drive, Frank Lowe, Greencastle Route 2, is shown placing a safety reminder on the speedometer of his car. Two stickers have been issued to each employee, together with a bulletin on the safety campaign. One sticker reads "Too Fast?" and the other, "Am I Backing the Attack?"

### Girl Is Struck By Truck Monday

Barbara Jo Bryant, 10, suffered injuries Monday afternoon when she ran out in front of a truck on Howard street.

City police said the youngster, daughter of Freeman Bryant, 305 Ohio street, ran out of an alley off Central into Howard and was hit by a pickup truck driven by Everett W. York. Officers reported that Mr. York did an excellent job of stopping his vehicle.

The child was taken to the Putnam County Hospital for X-rays and treatment of cuts and bruises.

### New Hurricane Churns In Gulf

NEW ORLEANS UP—Tropical storm Esther picked up force today, close on the whirling heels of hurricane Carrie, which swept toward the North Atlantic after lightly brushing Bermuda.

The new Gulf disturbance took on storm status Monday and was dubbed Esther—fifth on the official list of weather bad girls for this season.

Esther was last reported about 400 miles south of the Louisiana coast, with winds up to 45 miles an hour near the center.

Advisories on the two storms indicated Carrie appears finally about to dissipate at sea, while Esther shows signs of intensifying and posing a new threat to the Gulf Coast.

### Bakers' Union Wooded By Hoffa

WASHINGTON UP—Teamster Vice President James R. Hoffa apparently is trying to woo the Bakery Workers Union into an alliance, labor sources said today. Both unions are facing a possible ouster by the AFL-CIO on corruption charges.

The sources said Hoffa, who is expected to be elected president of the union at the coming Teamster convention, flew in a chartered plane from Detroit to Cincinnati for a 45-minute talk Monday night to the Bakery Workers Executive Board.

At the meeting Hoffa was reported to have told Bakery Workers President James G. Gross that he hoped they would be "traveling the same road" when they next met in Miami, where the Teamsters are holding their convention Sept. 30. The sources here said this could be an indication Hoffa is seeking an ally if the AFL-CIO takes disciplinary action.

While Hoffa campaigns to become the successor to Dave Beck, the Senate Rackets Committee is delving back into his past again. The committee said it would resume hearings Sept. 24 on Hoffa's activities. Hoffa is being invited but not compelled to put in an appearance.

The AFL-CIO Executive Council is expected to issue specific cleanup orders to the Teamsters and Bakery Workers next week. If the orders aren't heeded both unions could face expulsion—although that step would have to be taken by a full convention of the labor organization.

### SEEK CHANGE OF VENUE IN SCHOOL CASE

DELAY DEVELOPS IN LEGAL PROCEDURE OF CONTROVERSY

A further delay in bringing the Cloverdale school case to trial in the Clay Circuit Court has developed.

The defense has asked a change of venue from Judge Robert Stewart, and a new judge will have to be chosen to preside over the case.

The case, attacking the validity of the consolidation of three townships in Owen county and one in Putnam under the name of Schools was originally filed in the Owen Circuit Court. It was venued to Clay county on request of the defense, and was later set for trial on September 23.

Selection of a new judge may or may not cause a change in the trial date, but indications were today that a new trial date will have to be set after a new judge is chosen and has assumed jurisdiction in the matter.

The defense took a change of venue from Owen county, and has now taken a change of venue from the regular judge of the Clay Circuit Court, exhausting its right to venue changes. However, the plaintiff could still exercise its rights of change of venue, none of which it has used so far. Both plaintiff and defense have a right to one change of venue from the judge.

The attorneys representing the plaintiff indicated today that they were ready to go to trial with the case next Monday, but in view of the time necessary for three prospective names to be submitted and the plaintiff and defense given an opportunity to strike off one name each, it was felt unlikely that the case would go to trial on the date scheduled.

Jackson, Jennings and Taylor townships in Owen county and Cloverdale township in Putnam county, are involved in the disputed consolidation—Spencer Evening World.

### Two Added To DePauw Staff

Appointment of a new director of DePauw University's bureau of testing and research was announced here today by Dean Robert H. Farber.

He is John E. Exner, Jr., of Rochester, N. Y., who for the past two years has been a clinical psychologist at the Rochester Institute of Technology.

Replacing Dr. Barron B. Scarborough, Exner will serve as an assistant professor of psychology. Dr. Scarborough resigned to join the Florida State University staff.

Also announced today was the appointment of Miss Muriel Holland, former Indianapolis elementary school teacher, as an instructor in education.

Exner holds both the bachelor's and master's degrees from Trinity University, San Antonio, Tex., and currently is a doctoral candidate at Cornell University. Prior to joining the Rochester Institute staff in 1956, he served for two years at Sampson Air Force Base as the Air Force's first clinical psychologist with enlisted rank.

Miss Holland earned the B. A. degree at Butler University in 1947 and has studied at Purdue and Indiana universities. A former Fort Wayne speech correction teacher, she taught in Indianapolis from 1950 to 1957.

### Kasper, 9 Aides Under Injunction

NASHVILLE, Tenn., UP—Segregationist John Kasper and nine confederates were under preliminary federal injunction today to keep hands off Nashville's first grade integration program.

Federal Judge William F. Miller issued the order Monday, naming 10 of the 12 persons he had placed under temporary restraint last week following the three days of trouble that included dynamiting of an integrated school.

The federal court action gave Nashville school officials added hope for a peaceful school day and fuller attendance at the schools where first grades are integrated. Pupils go back to classes today after taking Monday off to attend the state fair.

As hope grew for a return to normal in Nashville, a mothers' league in troubled Little Rock, Ark., announced through an attorney it plans a legal action that could settle the differences between Gov. Orval Faubus and the federal government.

The lawyer, Griffin Smith, Jr., said the action is an appeal from the U. S. District Court order that Central High School in Little Rock be immediately desegregated. Faubus ordered out the state militia Sept. 2 to halt integration at the school, ostensibly to prevent bloodshed and violence.

The appeal opened new legal questions and apparently offered these possibilities:

The action could override the summons calling for Faubus' appearance before District Judge Donald Davies Friday to show cause why he should not be enjoined from further restraining segregation.

The entire question of integration could be put aside for as much as 90 days, since that much time is allowed for filing records in a case after the appeal itself is lodged.

### Grid Stands To Be Segregated

ATLANTIC (UP)—The stands "will be segregated" when the University of Georgia at Norfolk, Va., next month, according to a statement from the Georgia board of parents.

Board Chairman Robert O. Arnold said Monday all tickets to the game have been sold "under the laws" of Virginia, and no mixed seating will be allowed.

A spokesman at the U. S. Naval Academy said, however, there is a clause in all of Navy's contracts with southern colleges calling for "freedom of ingress and non-segregation of seating for all spectators seeking admission."

### Ike Meets With Budget Director

NEWPORT, I. (UP)—President Eisenhower scheduled an early morning meeting today at the vacation White House with Budget Director Percival Brundage and Maurice H. Stans, the new deputy budget director, on the federal budget for fiscal 1959.

Eisenhower also will fly back to Washington next Monday to make two brief speeches and attend a meeting of the National Security Council at the White House. He will return to Newport Monday afternoon.

### COUNTY BOARD OK'S PETITION FOR 5c LEVY

APPROVED BY COMMISSIONERS DURING MEETING ON MONDAY

By a unanimous vote, the Putnam County Commissioners late Monday afternoon, approved the petition requesting a 5-cent levy for the next two years in the county budget for construction and maintaining building and buildings owned and operated by the Putnam County Fair and 4-H Club Association.

The motion in favor of the petition was made by Commissioner Eric Boesen. Commissioner Cecil Brown stated that in view of the fact that no remonstrance had been filed and no one had appeared against the petition, he felt that it was the will of the taxpayers and thereby he would second the motion.

Commissioner Claude Hanna presided at Monday's session. The levy is based on each \$100 of an assessed valuation of approximately \$40,000,000. This will raise about \$20,000 each year or a total of \$40,000.

Providing this levy is accepted by the State Tax Board, the proposed county rate for the coming year will be \$1.18½ instead of \$1.13½ as approved by the County Tax Adjustment Board last week.

The petition carried 1,565 signatures and was carried in several instances by members of the various home demonstration clubs in the county.

It is reported that the members of these clubs are very anxious to have a woman's building erected at the fair grounds which some have estimated will cost \$45,000 to \$55,000.

### Panel May Aid Probe Of Crash

NEW BEDFORD, Mass. (UP)—The virtually undamaged instrument panel of the ill-fated Northeast Airlines plane which crashed Sunday night, killing 11 persons, was regarded by investigators today as an important aid to finding the cause of the accident.

Even as officials went through the twisted wreckage of the twin-engine DC3 in a swamp only half a mile from the Municipal Airport, hospital officials announced that two other passengers had died, in addition to the nine found dead at the scene.

Civil Aeronautics Board officials said the intact instrument panel could furnish an important lead to the cause of the mishap, especially if it were mechanical. They also planned to call in a group of meteorological experts today to determine the exact weather conditions prevailing at the time of the accident.

#### MISSING CHICAGO COUPLE LOCATED IN N. Y. STATE

TONAWANDA, N. Y. UP—The mother of a husky, 23-year-old furnace repairman who reportedly eloped with a 16-year-old police victim admitted today the couple was "at our home but we haven't discussed yet whether they got married or not."

Mrs. Eugene Lilac Sr., refused to call either her son, Eugene, or his bride, Marion Halstead Lilac, to the phone as "they're resting and I won't disturb them."

"Since both the girl's parents and my husband and I know the children are and they are safe, we have nothing to say," Mrs. Lilac said.

## TODAY'S BIBLE THOUGHT

The Jews have no dealings with Samaritans. John 4:9. The difference between Jews and Samaritans was largely an irrelevant belief that The Mountain of Samaria was a better place to worship than Jerusalem. Modern sects have equally silly grounds for division. Every division weakens the Church of Christ.

## FALSE TEETH That Loosen Need Not Embarrass

Many wearers of false teeth have suffered real embarrassment because their plate dropped, slipped or wobbled at just the wrong time. Do not live in fear of this happening to you. Just sprinkle a little FASTEETH, the alkaline (non-acid) powder, on your plates. Hold false teeth more firmly, so they fit more comfortably. Does not sour. Checks "plate odor" (denture breath). Get FASTEETH at any drug counter.

## Across The Counter

When we opened the office one morning, a lady was waiting. "I hate to do it," she said, "but I've got to report a minor accident."

"Think nothing of it," I replied, "that's what insurance is for."

"I know," she said, "but I've been driving for 38 years without an accident—countless miles over all kinds of roads. Now that record is shattered. I slowed down to turn, and a car crashed into the back of mine."

Although apparently our policyholder was not at fault, we reported the accident to the company so that the adjuster would investigate. Also, we knew he would help our client in settling with the other insurance company.

Early the next morning, the lady appeared once more looking highly flustered. "It happened again," she said. "Same type of accident. Only this time I stopped near a school to let some school kids cross the street."

This accident was reported also. The adjuster, in friendly fashion, took over. He met with the adjusters of the other companies. Our client was involved in no "property damage" because both the other cars had been following too close. However, our client received a neck injury and the adjuster helped her with her claim.

"It's amazing," she said. "You folks went out of your way to help me even though the two accidents didn't result in a claim against your company."

Place your auto insurance with us. Because we'd be glad to HELP you too!

## Ike Criticized By Legion Head

ATLANTIC CITY, N. J. UP—National American Legion Commander W. C. (Red) Daniel today accused the Eisenhower administration of "being completely out of step" with the thinking of the people in such instances as foreign economic aid and the status of forces agreements.

Daniel said in his report to 3,113 delegates at the opening business session of the Legion's 39th national convention that his travels around the country convinced him that "the average American citizen has a far clearer insight into what our foreign policy should be than do many of our so-called experts."

He said the Legion opposed foreign aid because "if recent history proves anything, it proves that you cannot buy friends over the bargain counter as you would common merchandise. Economic aid to foreign countries both friendly and unfriendly has proven itself ineffective as long-term instrument of foreign policy."

Daniel said the Japanese mur-

der trial of Army Specialist William S. Girard "brought into sharp focus the need for a revision of many international agreements. One of the great threats to our security is the undermining of our constitutional rights. Those constitutional guarantees must be held equally sacred for the citizen within our boundaries and for the serviceman on foreign soil."

He emphasized that the guilt or innocence of Girard was not the Legion's business, but its primary concern is the protection of his rights as an American citizen.

The convention was opened officially Monday with a 10-hour parade of servicemen and veterans before 125,000 persons on the famous boardwalk here.

## Thailand Under Control Of Army

BANGKOK UP—The Thailand army seized power early today in a bloodless coup that overthrew the pro-Western government of Premier Pibul Songgram. The country was placed under martial law.

Pibul, himself an army field marshal, was missing and there was no reply to repeated broadcasts from Radio Bangkok: "Please report as soon as possible."

The revolt against Pibul, a staunch friend of the United States, was led by one of his longtime supporters, Field Marshal Sarit Thanarat.

Sarit has been a power behind the throne for years. He has never publicly declared his position in the East-West struggle. However, he is considered pro-Western.

Pibul apparently had advance

word of the coup and fled before the army's tanks and soldiers began rolling out of army headquarters Monday night to seize the strategic strongpoints in this storied city.

The coup was one of the quietest in Thailand's turbulent history, partially because it occurred on a Buddhist holiday when government offices and schools were closed.

When the 48-year-old Sarit made his move there was no resistance. Police headquarters were taken over smoothly and swiftly. It took less than five minutes to accomplish the job although the 50,000 man police force is rated on a par with the army.

Within an hour bridges, communications offices and transportation headquarters were under Sarit's strict control. Several of Songgram's aides were reported under arrest, including his personal secretary, Gen. Poon Chatgavanij.

## GEORGE CROWE DAY

FRANKLIN, Ind., (UP) — Nearly 50 Franklin residents had tickets today for a major league baseball game at Cincinnati during which they will celebrate George Crowe Day in honor of a hometown boy who made good.

Crowe, 34, star first baseman for the Cincinnati Redlegs of the National League, was an outstanding athlete in Franklin high school a generation ago and led the basketball team to the championship game of the Indiana prep tourney in 1939.

Busses and private automobiles filled with friends and fans of the unassuming Negro athlete will make the 100-mile trip to the Ohio city Sunday on the day of the last home game of the season for the Redlegs. They play St. Louis.

Francis V. Gallagher, a Franklin insurance agent, and a former Johnson County athlete himself, cooked up the "George Crowe Day" plan.

At least five busses will take fans to Cincinnati. Others, including Mayor Jarvis Alexander, will go by car.

## 30-DAY FORECAST MADE BY U. S. WEATHER BUREAU

WASHINGTON (UP) — The Weather Bureau predicts above normal temperatures for both the Atlantic and Pacific coasts during the next 30 days.

Below normal temperatures were forecast from the lower Mississippi Valley and western Great Lakes region westward to the plateau states.

The bureau said near normal temperatures are in prospect elsewhere "except for above normal along the west coast."

In the East, temperatures are expected to average "above seasonal normals east of the Appalachians with greatest departures along the north and middle Atlantic coast."

Precipitation is expected to exceed normal over the eastern third of the nation but be sub-normal west of the Continental Divide, the bureau said. About normal amounts were forecast for the central third of the country.

This evidenced by the tremendous living room, the family size breakfast nook and a food preparation center that is arranged for maximum convenience. The china built-ins facing the dining room are enclosed at the lower half, this gives you welcome storage space where you want it most. Special attention is invited to the excellent traffic pattern. The first lavatory has ideal placement which will save you many unnecessary steps. The upper story sleeping wing has four bedrooms and 1 1/2 baths plus built-in chests in both of the front bedrooms. ### MUST SLEEP IN BARN

POTTSVILLE, Pa. (UP)—Walter Bennett, 32, a convicted bigamist, cannot expect very congenial companionship for the next year as a result of the sentence awarded him for his crime.

He was ordered Monday to sleep in the barn for one year on the farm where he lived with his second wife, Wilma, and their three children. Judge Cyrus M. Palmer imposed the punishment

when he was faced with a dilemma.

It would be illegal to send Bennett back to his second spouse. But the jurist was told if he sentenced the bigamist to prison the second wife might die of a heart condition. Palmer ordered Bennett to the barn with the animals as a solution. He stipulated that he would work the farm to support his second family.

**NEWSPRINT MAKERS ARE CONCERNED ON CUTBACKS**  
NEW YORK (UP)—Canadian newspaper producers said today they are worried lest a sharp decline in sales adds enormously to overhead and puts a brake on expansion that will be needed in three or four years.  
The Newspaper Information Committee said the industry's operating rate fell to 95.1 per cent in July, the lowest point in a decade. In that month one Canadian company said its U. S. customers took only 84 per cent of the quantity they had contracted for.  
Other producers reported short notice cutbacks on orders running as high as 50 per cent, made by publishers when advertising linage failed to increase as much as expected.  
The committee is especially concerned by the outlook because the industry has been modernizing paper-making machines at an average cost of \$45,000 per additional daily ton of output, and installing new machinery at costs running above \$100,000 per daily ton of newspaper output.

## Opera Company Mad At Callis

SAN FRANCISCO UP — The San Francisco Opera Co., was mad enough today at soprano Maria Meneghini-Callas that it might try to get her barred from the American stage.

The opera company didn't put it that way, exactly, but that appeared to be intent of a frigid announcement issued by its president, Robert Watt Miller.

The season for the company's fury, according to Miller, was that the famed prima donna has refused to sing this season with the opera company in San Francisco and Los Angeles. The season opens tonight.

Mme Callas was booked to sing twice in "Lucia" and twice in "Macbeth" in San Francisco. All her performances had been sold out for months. Her first appearance was to have been Sept. 27.

Last week, rumors swept the War Memorial Opera House that the temperamental diva was still in Milan, Italy, and of a mind to stay there. Only two weeks ago, she had canceled an appearance at the Edinburgh Festival because she was "tired."

Monday night, Miller issued a curt statement that said:

"The management of the San Francisco Opera Company announces that Maria Meneghini-Callas has been dropped from the roster of artists for the 1957 season because Mme. Callas has refused to fulfill her contractual obligations.

"Appropriate representation is being made to the American Guild of Musical Artists for redress to the company.
